AD ASTRA ROCKET COMPANY and SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

Ad Astra Rocket Company and Subsidiaries (the "Company" or "AARC") was incorporated on January 14, 2005 and officially organized on July 15, 2005 in Houston, Texas. The Company is dedicated to the research and development of advanced plasma rocket propulsion technology and is continuing with development of the Variable Specific Impulse Magnetoplasma Rocket ("VASIMR") and its associated technologies.

Basis of Consolidation

The consolidated financial statements include the accounts of the Company's direct, wholly-owned subsidiaries: Ad Astra Rocket Company (Costa Rica) S.R.L. incorporated in Costa Rica, and Ad Astra Servicios Energeticos Y Ambientales, Inc. a Delaware corporation. The consolidated financial statements also include the accounts of the Company's indirect, wholly owned subsidiary Ad Astra Servicios Energeticos y Ambientales AASEA, S.R.L., a Costa Rican corporation which is a direct, wholly-owned subsidiary of Ad Astra Servicios Energéticos Y Ambientales, Inc. All significant intercompany accounts and transactions have been eliminated in consolidation.

The financial position, results of operations and cash flows of the Company's foreign subsidiary are determined using the United States of America dollar as the functional currency.

Cash and Cash Equivalents

For purposes of reporting cash flows, the Company considers all short-term investments with an original maturity of three months or less to be cash equivalents.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities. These estimates also impact disclosure of contingent assets and liabilities at the date of the financial statements and the related reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Management believes that its estimates are reasonable.

Property and Equipment

Property and equipment are stated at cost. Depreciation of property and equipment is provided using the straight-line method for financial reporting purposes based on the estimated useful lives of the assets as follows:

	<u>Years</u>
Computers and software	3
Laboratory equipment	5
Machine shop equipment	5
Capital lease equipment	5

Leasehold improvements are amortized on a straight-line basis based on the shorter of the corresponding lease term or useful life. Expenditures for major renewals and improvements that extend the useful lives of the property and equipment are capitalized. Expenditures for maintenance and repairs are charged to expense as incurred. The cost and accumulated depreciation of assets sold or otherwise disposed of are removed from the accounts and any resulting gain or loss is reflected in operations.

Impairment of Long-Lived Assets

In the event that facts and circumstances indicate that the carrying value of a long-lived asset, including intangible assets, may be impaired, an evaluation of recoverability is performed by comparing the estimated future undiscounted cash flows associated with the asset or the asset's estimated fair value to the asset's carrying amount to determine if a write-down to market value or discounted cash flow is required. During the period ending September 30, 2015 and the year ended December 31, 2014, the Company did not record any impairment expenses related to its long-lived assets.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies, continued

Income Taxes

The Company uses the liability method of accounting for income taxes. Under this method, deferred income taxes are recorded to reflect the tax consequences on future years of temporary differences between the tax basis of assets and liabilities and their financial reporting amounts at the end of the reporting period. The Company provides a valuation allowance to reduce deferred tax assets to their net realizable value.

The Company uses Accounting Standards Codification ("ASC") 740-10, *"Accounting for Uncertainty in Income Taxes,"* which creates a single model to address uncertainty in income tax positions and prescribes the minimum recognition threshold a taxation is required to meet before recognized in the financial statements. The Company did not recognize any interest or penalties related to any unrecognized tax position during the years ended December 31, 2014 and 2013.

The Company files a consolidated federal income tax return in the United States and state tax returns where applicable. With few exceptions, the Company is no longer subject to United States federal income tax or state income tax examinations for years before 2010.

Stock-Based Compensation

ASC 718-10, *"Accounting for Stock-Based Compensation,"* requires companies to estimate the fair value of share-based payment awards on the date of grant using an option-pricing model. The value of the portion of the award that is ultimately expected to vest is recognized as expense over the requisite service periods in the Company's consolidated statement of operations.

Stock-based compensation expense recognized under ASC 718-10 for the periods ended September 30, 2015 and December 31, 2014 was \$54,177, and \$138,171, which consists of stock-based compensation expense related to employee and director stock options issuances.

Loss Per Share

Basic loss per share is calculated based on the weighted average number of common shares outstanding during each period. Diluted loss-per share include shares issuable upon exercise of outstanding stock options that have exercise or conversion prices below the market value of the Company's common stock. At September 30, 2015 and December 31, 2014, stock options pertaining to 428,500 and 312,300 shares of common stock have been excluded from the computation of diluted earnings per share because the Company is in a net loss position and their effect would be anti-dilutive. For the periods ended September 30, 2015 and December 31, 2014, the Company's basic and diluted net loss per share was \$0.02 and \$0.05 based on 20,890,970 and 20,775,828 weighted average shares outstanding.

Concentrations of Credit Risk

The Company maintains its cash in financial institutions selected by management based upon their assessment of the financial stability of the institution. Balances periodically exceed the federal depository insurance limit; however, the Company has not experienced any losses on deposits.

Research and Development

Costs of research and development projects are expensed as incurred. These costs consist of direct costs associated with the design of new products. Research and development expenses for the periods ended September 30, 2015 and December 31, 2014, were \$373,043 and \$543,106.

Fair Value of Financial Instruments

Fair value estimates of financial instruments are based on relevant market information and may be subjective in nature and involve uncertainties and matters of significant judgment. The Company believes that the

carrying value of its assets and liabilities approximates the fair value of such items. The Company does not hold or issue financial instruments for trading purposes.

The Company adheres to ASC 820 and includes fair value information in the notes to its consolidated financial statements when the fair value of its financial instruments is different from the book value. When the book value approximates fair value, no additional disclosure is made.

Recently Issued Accounting Pronouncements

In August 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-15 *Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern*. This new accounting guidance under Accounting Standards Codification Topic("ASC") 205, *Presentation of Financial Statements-Going Concern*, provides guidance in GAAP about management's responsibility to evaluate whether there is substantial doubt an entity's ability to continue as a going concern and to provide related footnotes.. The guidance will become effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. Early adoption is permitted. The Company does not anticipate the adoption of this guidance to have a significant impact on its consolidated financial statements.

In June 2014, the FASB issued ASU No. 2014-10 *Elimination of Certain Financial Reporting Requirements, Including an Amendment to Variable Interest Entities Guidance in Topic 810, Consolidation*. This new accounting guidance under ASC 915, *Development Stage Entities*, provides guidance which removes the definition of a development stage entity from the Master Glossary of the Accounting Standards Codification, thereby removing the financial reporting distinction between development stage entities and other reporting entities from GAAP. In addition, the amendments eliminate the requirements for development stage entities to (1) present inception-to-date information in the statements of operations, cash flows, and stockholder equity, (2) label the financial statements as those of a development stage entity, (3) disclose a description of the development stage activities in which the entity is engaged, and (4) disclose in the first year in which the entity is no longer a development stage entity that in prior years it had been in the development stage. The guidance will become effective prospectively for non-public entities with annual periods beginning after December 15, 2014. Early adoption is permitted. The Company, during the year ended December 31, 2014 elected to adopt the provisions of ASU 2014-10 and has reflected the required disclosure changes within the Company's consolidated financial statements, including the removal of development stage disclosures.

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09 *Section A - Summary and Amendments that Create Revenue From Contracts With Customers*. This new accounting guidance under Accounting Standards Codification Topic("ASC") 606, *Revenue From Contracts with Customers*, provides an improvement to the understandability of revenue, and guidance for transactions that are not addressed comprehensively. The guidance will become effective prospectively for annual periods beginning after December 15, 2016. Early adoption is not permitted. The Company does not anticipate the adoption of this guidance to have a significant impact on its consolidated financial statements.

2. Accounts Receivable

The balance of Accounts Receivable resulting from various contracts, speaking, and consulting engagements as of September 30, 2015 and December 31, 2014 was \$367,829 and \$4,431.

8. Related Party Transactions

As of September 30, 2015 and December 31, 2014, the Company has an outstanding balance of \$199,893 recorded in accounts payable, related party, related to systems integration services provided by a company that is owned by a member of the Company's board of directors.

For the periods ended September 30, 2015 and December 31, 2014, the Company leased its Costa Rica laboratory and warehouse from an investment fund that is controlled by an affiliate of one of the Company's minor shareholders ("Aldesa"), with lease expenses totaling \$62,100 and \$78,300. As of September 30, 2015 and December 31, 2014, the Company had an outstanding balance of \$100 and \$0 due to this affiliate pursuant to the lease agreement. For the periods ended September 30, 2015 and December 31, 2014, the Company paid Aldesa commissions of \$1,443 and \$26,126 earned in connection with the sale of 12,028 and 45,080 shares of the Company's common stock resulting in net proceeds of \$70,725 and \$ 255,167.

In July 2013 the Company obtained a loan from a member of its Board of Directors. These funds were used by the Company to meet its obligations under a note payable to a bank which matured in July 2013. Upon the payoff of the maturing note payable in July 2013, the Company was able to secure a new note payable. In August 2013, the funds from this new note payable were used to pay in full the note payable to the member of the Board of Directors. These transactions enabled the Company to reduce its note payable to banks by \$18,708. The board member charged the Company no interest on his note payable

9. Income Taxes

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax reporting purposes. For the years ended December 31, 2014 and 2013, there were no provisions for income taxes and deferred tax assets have been entirely offset by a valuation allowance, due to the Company's unlikely realization based on its recurring net losses.

Significant components of the Company's deferred tax assets and liabilities at December 31, 2014 and 2013 were as follows:

	<u>2014</u>	<u>2013</u>
Deferred tax assets:		
Net operating loss carry-forwards	\$ 9,493,397	\$ 9,038,516
Non-deductible accruals	507,180	490,103
Basis difference in property and equipment	<u>231,204</u>	<u>348,818</u>
Total deferred tax assets	<u>10,231,781</u>	<u>9,877,437</u>
Valuation allowance	<u>(10,231,781)</u>	<u>(9,877,437)</u>
Net deferred tax asset	\$ -	\$ -

The difference between the income tax benefit in the accompanying statements of operations and the amount that would result if the U.S. Federal statutory rate of 34% were applied to pre-tax loss for the years ended December 31, 2014 and 2013 is as follows:

	<u>2014</u>		<u>2013</u>	
	<u>Amount</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>
Benefit for income tax at federal statutory rate	\$ (436,060)	(34.0)	\$ (814,777)	(34.0)
Increase in valuation allowance	354,344	27.6	733,402	30.6

As of December 31, 2014, for United States of America ("U.S.") federal income tax reporting purposes, the Company has approximately \$27,921,000 of unused net operating losses ("NOLs") available for carry-forward to future years. The benefit from carry-forward of such NOLs will expire at various dates through December 31, 2014.

9. Income Taxes, continued

Because tax laws limit the time during which NOL carry-forwards may be applied against future taxable income, the Company may be unable to take full advantage of its NOLs for federal income tax purposes should the Company generate taxable income. Further, the benefit from utilization of NOL carry-forwards could be subject to limitations due to material ownership changes that may or may not occur in the Company. Based on such limitations, the Company has significant NOL's for which realization of tax benefits is uncertain and thus has recorded a valuation allowance equal to 100% of its unused NOLs as of December 31, 2014.

The Company had no costs related to these issuances.

Preferred Stock

The Company has 10,000 authorized shares of Preferred Stock, par value \$0.01 per share. The Preferred Stock may be issued in series, from time to time, with such designations, rights, preferences, and limitations as the Board of Directors may determine by resolution.

Series A Preferred Stock

At September 30, 2015 and December 31, 2014, the Company had 2,200 shares authorized and 369 shares issued and outstanding of Series A preferred stock, par value \$0.01 per share ("Series A"). The Series A has a liquidation preference equal to the original purchase price and does not pay a mandatory dividend. The Series A is convertible into Common Stock any time at the option of the holder at a price determined by dividing the Series A original issue price by the Series A conversion price in effect at the time of conversion.

AD ASTRA ROCKET COMPANY and SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

10. Equity, continued

The Series A conversion price is equal to the original issue price per share divided by 3,000. The Company has the right to redeem the Series A for cash at any time after the five year anniversary date of the issuance at a redemption price calculated by multiplying the Series A original issue price by one plus the Prime Rate (as reported by Bloomberg, L.P.) on the date of redemption times the number of years from the applicable Series A original issue date until the date of such calculation with a partial year being expressed by dividing the number of days which have passed since the most recent anniversary by 365, plus all declared but unpaid dividends.

During the periods ended September 30, 2015 and December 31, 2014 the Company did not issue any shares of Series A Preferred Stock.

At September 30, 2015 and December 31, 2014, there were no accumulated, undeclared dividends.

Series C Preferred Stock

At September 30, 2015 and December 31, 2014, the Company had 1,000 shares authorized and 26 issued and outstanding, of Series C Preferred, par value \$0.01 per share ("Series C"). The Series C has a liquidation preference equal to the original purchase price, the Series A preferred stock and does not pay a mandatory dividend. The Series C is convertible by the holder into Common Stock within 15 days of notice of redemption from the Company at a price determined by dividing the Series C original issue price by the Series C conversion price in effect at the time of conversion.

The Series C conversion price is equal to the original issue price per share divided by 3,000. The Company has the right to redeem the Series C for cash at any time after issuance with a twenty day written notice at a redemption price equal to the original issue price, plus all declared but unpaid dividends. The Series C stock may become mandatorily convertible to common shares at a conversion rate of 3,000 common shares for each Series C share held in the event of the Company closing the sale of its common stock to the public in an underwritten offering pursuant to an effective registration statement under the Securities Act of 1933, as amended.

During the periods ended September 30, 2015 and December 31, 2014, the Company did not issue any shares of Series C Preferred Stock.

At September 30, 2015 and December 31, 2014, there were no accumulated, undeclared dividends.

11. Commitments

Operating Leases

In June of 2013, the Company negotiated a lease agreement for office and laboratory space in Liberia, Costa Rica. The term of the agreement was for forty-eight months with a one-time option to extend the lease an additional two years. The agreement for the first 12 months is for a rent of \$6,000 per month, for months 13-24 rent is \$6,900 per month, for months 25-36 rent is \$7,935 and for months 37 to 48 rent is \$9,522 per month.

In August 2012, the Company renewed its lease agreement for office and laboratory space in Webster, Texas. The term of the agreement is for thirty-six months with a one-time option to extend the lease an additional two years. The agreement for the first 12 months is for a base rent of \$8,385 per month plus a pro-rata share of operating expenses, for months 13 to 24 base rent is \$11,180 per month plus a pro-rata share of operating expenses, and for months 25 to 36 base rent is \$13,975 per month plus a pro-rata share of operating expenses. If the Company chooses to exercise the one-time option, the base rent for months 37 to 48 will be \$13,975 per month plus a pro-rata share of operating expenses and for months 49 to 60 base rent will be \$15,050 plus a pro-rata share of operating expenses. In July of 2015 the Company exercised its one time option to extend the lease for an additional two years.

Rent expense for the periods ended September 30, 2015 and December 31, 2014 totaled \$228,060, and \$287,780 on a straight-line basis.

12. Going Concern

The Company has not generated significant revenue related to its intended operations since its inception and thereby has experienced recurring net losses and negative cash flows from operations as follows. During the periods ended September 30, 2015 and December 31, 2014 the Company's net losses were \$319,156, and \$1,282,530, and net cash used in operating activities was \$690,349, and \$1,043,537. During the periods ended September 30, 2015 and December 31, 2014, the Company had a working capital deficiency of \$1,574,399 and \$2,047,984. These factors raise a substantial doubt about the Company's ability to continue as a going concern.

Historically, the Company has financed its operations using sales of its common and preferred stock and the issuance of convertible debentures to a related party. The Company used net cash for its investing activities for the periods ended September 31, 2015 and December 31, 2014 of \$ 106,679 and \$0.0, respectively, representing minimal capital expenditures during the period. The Company received net cash from its financing activities for the periods ended September 30, 2015 and December 31, 2014 of \$1,055,419 and \$ 986,025.

Management plans to continue to focus on raising the funds necessary to fully implement the Company's business plan. The Company's long-term viability depends on its ability to obtain adequate sources of equity or debt funding to meet current commitments and fund the continuation of its business operations and the ability of the Company to ultimately achieve adequate profitability and cash flows from operations to sustain its operations. There can be no assurance that management will be able to secure the sources to fund its commitments and continued operations.

13. Contingencies

From time to time, the Company may be involved in various claims and legal actions arising in the ordinary course of business. Management, along with the assistance of counsel, will determine the ultimate disposition and potential impact of these matters on the Company's financial condition, liquidity or results from operations. As of September 30, 2015, the Company is involved in a regulatory tax matter with the taxing authorities in Costa Rica. The taxing authorities have claimed the Company owed taxes and penalties related to ancillary income earned. As a result of this claim, the Company recorded a current liability of \$150,000 to cover the expected back taxes, penalties and legal representation for the matter.

14. Subsequent Events

Subsequent events have been evaluated through November 24, 2015 which is the date the consolidated financial statements were available to be issued.

On November 1, 2015 the Company renegotiated and entered into a new lease agreement for its office and laboratory space in Liberia, Costa Rica. The term of the agreement is for thirty-six months. The agreement for the first 12 months is for a rent of \$6,900 per month, for months 13-24 rent is \$7,107 per month, and for months 25 to 36, rent is \$7,320 per month.
